^{1}H NMR Analysis Report

Sample name: The Drops 30-12-2024

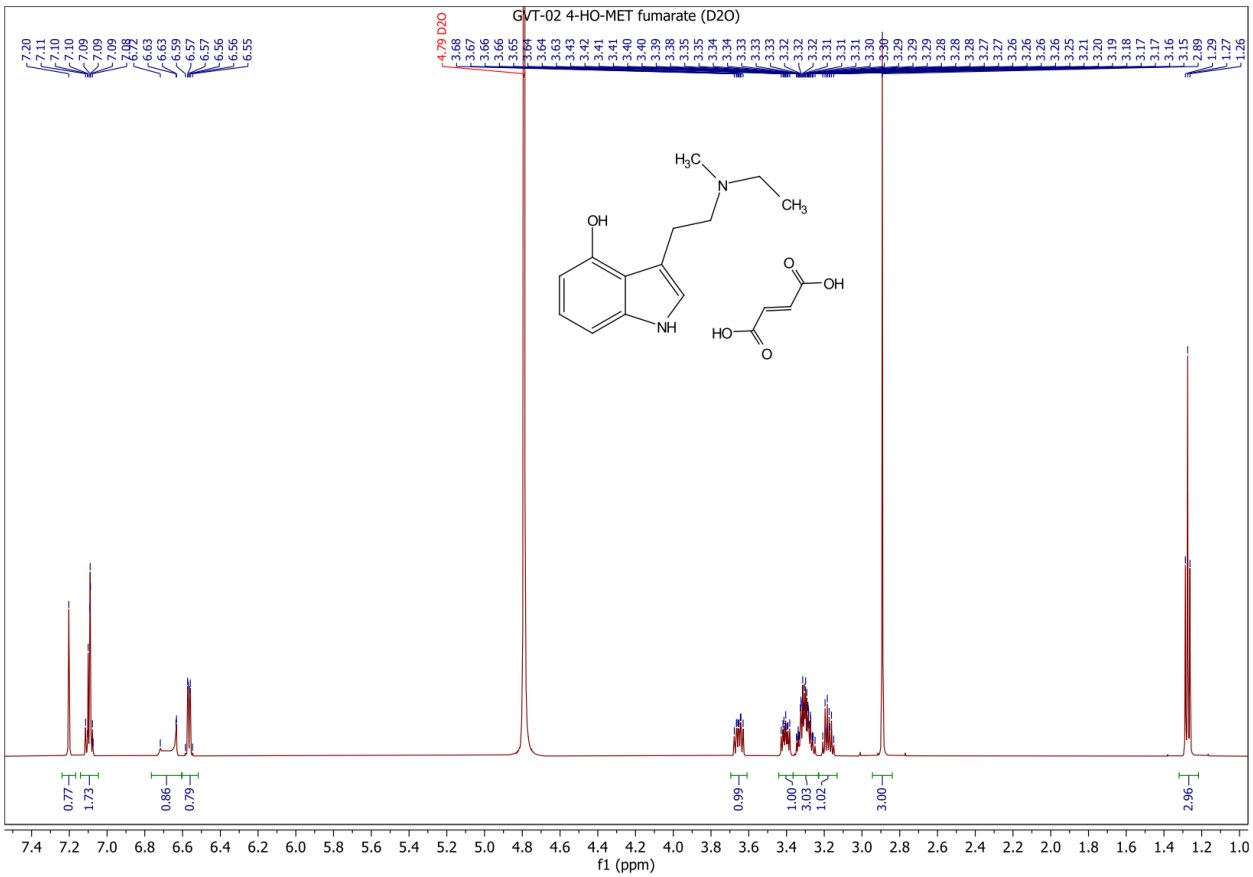
Spectrometer: Bruker 600 MHz **Solvent**: D_2O

Expected compound: 4-HO-MET fumarate

Identified compound: 4-HO-MET fumarate

3-[2-[ethyl(methyl)amino]ethyl]-1*H*-indol-4-ol

Estimated purity: 99%



Lab Notes: The sample contained the expected compound 4-HO-MET as its fumarate salt with barely detectable traces of impurities.
